

Wickham Laboratories

Contract Analytical Services

Medical Device Testing

We undertake the routine analysis required for sterilisation and bioburden testing as well as development work to confirm proof of concept.

As part of this work, we are conversant with the microbiological requirements of many standards, including ISO 11135-1, ISO 11737-1/2, and the ISO 10993 series.

Our medical device services include:

- **Cytotoxic/Pyrogenic Response (in vitro & in vivo methods)**
- **Integrity Testing**
- **Log Reduction**
- **Method Development**
- **Routine Quality Control**
- **USP Plastics Class I-VI**

Contract Analytical Services

Pharmaceutical Testing

We conduct testing on APIs, excipients and products as well as biological preparations and fluids, utilising industry standard harmonised methods compliant with Ph. Eur, USP and JP pharmacopoeial guidelines.

Our pharmaceutical services include:

- **Abnormal Toxicity/General Safety**
- **Method Development**
- **Microbial Identification (rapid & traditional methods)**
- **Routine Quality Control**
- **Potency Bioassays**
- **Process Validation**
- **Pyrogenic Response (in vitro & in vivo methods)**
